

### **ULI Chicago's Lifetime Achievement Award**

ULI Chicago's Lifetime Achievement Award, now in its twenty-second year, identifies outstanding leaders from across the fields of real estate and land use policy and honors their personal and professional contributions in creating and sustaining thriving communities.

The Lifetime Achievement Award honors an individual whose achievements throughout his or her lifetime exemplify personal and professional contributions to the real estate industry and to the community. Nominees are industry professionals from the Chicagoland area. The criterion for the award is a lifetime of professional, personal and civic commitments to the real estate profession and to our community at large. Nominations are solicited from the ULI Chicago membership only. A Nomination Committee then reviews and nominates one candidate. Candidates do not have to be ULI members.

The Award event includes a cocktail reception, dinner and the awards program. The event is also an opportunity to celebrate the extensive community outreach initiatives established by ULI Chicago and is one of the primary sources of funding for ULI Chicago's local program of work.
