

## **Ranadip Bose**

*Senior Vice President, SB Friedman Development Advisors*

Ranadip has deep expertise in real estate market analysis, financial analysis, economic and fiscal impact studies, and urban economic development strategy. He excels in tackling various urban economic issues and delivering research-based implementation strategies to clients. He has led a consulting effort to foster economic development in the manufacturing sector under the Chicago Sustainable Industries initiative, and evaluated the effectiveness of various value capture mechanisms for transit improvements for the Chicago Metropolitan Agency for Planning. Other experience includes a market analysis and implementation of the lakefront area in downtown Cleveland, redevelopment strategies in connection with the Michael Reese Hospital site in Chicago, and a sector-based market analysis and master planning process for the Milwaukee 30th Street Industrial Corridor. Ranadip has a Master's degree in Urban and Regional Planning from the University of Illinois at Urbana-Champaign and a Bachelor's in Architecture from Jadavpur University, India. He is a member of the American Planning Association, Lambda Alpha International-Ely Chapter, and Urban Land Institute.
